## 3D Jackpot

Level/tier according to number of entries
1D-9 or less, 2D-10-14, 3D-15 or more

Pay percentage of purse to each tier according to \# of tiers
Ex-1D pays only one tier with 100\% purse, 2D pays 2 tiers with top tier receiving $60 \%$ of the purse and the 2 nd tier receiving $40 \%$ of purse, and 3D pays 3 tiers at 50/30/20

Pay number of placings in each tier, according to the number of entries in each tier.
Ex-1D will pay either one place at $100 \%$ if there are only 5 entries, or two places at $60 / 40$ if there are 6-9 entries
2D will pay either one place in each tier at $100 \%$ if there are 5 entries in a tier, or two places at 60/40 if there are 6-7 entries in a tier
3D will pay one place at $100 \%$ if there are only 5 entries in a tier (total 15-17 entries), 2 places at 60/40 if there are 6-10 entries in a tier (total 16-32 entries), 3 places at 50/30/20 if there are 11-15 entries in a tier (total 3145 entries), etc.
