Why Rodear Cattle Dog?

Rodear is a point and time event wherein the stock savvy and skill of the dog, rider and horse are put to the test. The competition centers around maneuvering a small group of cattle through a number of obstacles in a set amount of time. Rodear places a great deal of emphasis on the stockmanship of the handler and the quiet and controlled manner in which the dog maneuvers the cattle.

The event is unique from other cow dog competitions in that the majority of the obstacles require both the dog and horse/rider to negotiate. Rodear provides a great place for individuals to enjoy their good cow horses and work their good cow dogs through courses that either take place in an arena or cross country, or both! This concept of truly utilizing the horse has made the Rodear event attractive to the ranching and western performance horse industries.

Rodear is being increasingly embraced by stock dog owners, cattle ranchers, cutting and cow horse enthusiasts, as well as beginner, intermediate and advanced stock dog handlers.
