

WHAT IS 3D?

The Rodear 3D Jackpot is a separate jackpot not associated with any of the regular classes and will run as a separate class with a fun new twist to the game. Any handler and any dog are eligible, which means this gives everyone another place to run their dogs in a class that is not classified! The twist is in the payouts. Per the example below, 40 entries would be divided into 3 "tiers" of 15. After all entries have run, the scores/times are ranked in order 1-40 and the top 3 scores in each "tier" of 15 are paid. This is a fun new class with 100% payback.
